US OVAL PARK

Oval Park is part of the United States Oval Historic District added to the National Register of Historic Places in 1989. All Park improvements will respect the historic nature of the Park and its surroundings. All new building and structures to be reviewed and approved by New York's State Historic Preservation Office (SHPO).

5 Restrooms

- Providing access to convenient and safe restrooms within the Park increases the health benefits, allowing flexibility and ability for extended stay for all Park users to participate and enjoy the proposed enhanced amenities throughout the Park.

9 Pavilion

- Provide a gathering space for larger groups enhancing the park's outdoor amenities offering a location for public events, as well as, a rental opportunity for private parties. Ensure architectural design is compatible with surrounding historic buildings.

9 Picnic Area

- Provide a shaded area(s) with picnic tables, benches, and trash receptacles offering users a place to sit, relax, eat, play games, and rest within the Park. Located near the refurbished gazebo, new pavilion, playground, and natural play nodes to support overlapping compatible uses within the Park.

11 Dog Waste Station

- Encouraging dog walkers and pet owners to responsibly look after their pets allowing the Park to remain clean for all users. To be located at strategic places within the Park. To be maintained by City staff.

12 Bottle Fill Station

- Encourage users to reuse water bottles, save money, stay hydrated, and protect the environment by offering a water station with water fountain, bottle fill, and pet bowl.

1 Natural Playground Nodes - 6 Features at 6 Locations

• Taking advantage of the vast open space within the Park, it is proposed to design a natural playground loop trail with individual play stations along the path, to provide a casual and easy exercise walk for visitors. The route traverses around a larger destination playground and all other proposed site amenities at the northern end of the Park allowing for flexible overlapping play to be explored and enjoyed.

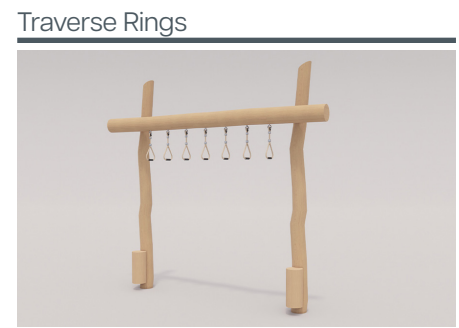

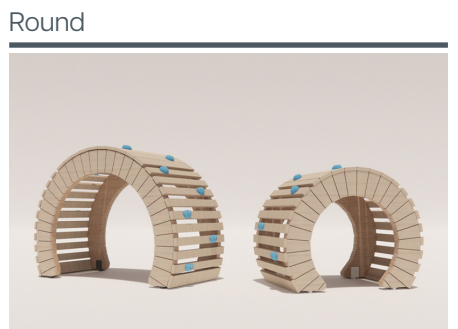

2 Inclusive Destination Playground

• With the vast open space at the Park, the design of an inclusive destination playground is the perfect feature to expand the Park's use to offer a large playground appealing to more than just the neighbors in close proximity. This destination playground can potentially draw crowds from surrounding areas with its unique airplane theme, offering interest and play for a wide range of children and adults alike.

1 Natural Playground Nodes: Features

The nature play loop contains six nodes of various types of nature play.

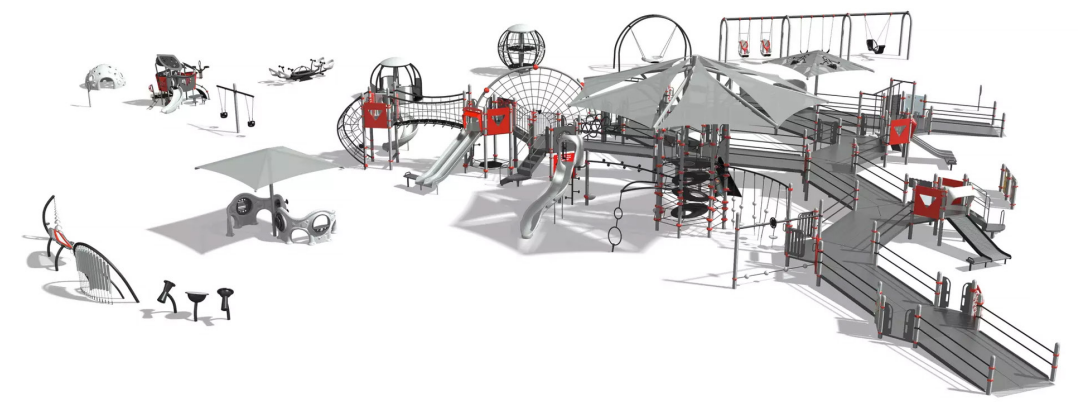

Earthscape: **Natural Play** Age: 5-12y

2 Inclusive Destination Playground

The inclusive destination playground would be a major attraction within US Oval Park.

Landscape Structures: **Parc Julie-Hamelin** Age: 2-12y

- The inclusive playground design includes an extensive ramp system to bring kids of all abilities to the center of the action.
- The playground contains activity panels, slides, bridges and climbing activities.
- For younger kids, the Motion playstructure was included, which packs 16 interactive play activities into a compact space.
- Many freestanding play components (musical instruments, playground swings) are also included.

Pro Playgrounds: **Fighter Jet Play System** Age: 5-12y

The airplane themed playground represents the history of US Oval Park being located on Plattsburgh Air Force Base.
