

Plattsburgh
PARKS RENEWAL PROJECT

South Platt Street Park

Legend

- Arterial Road
- Collector Road
- Local Road
- 1ft Contour
- 2015 Parcels
- Park Boundary

Extra storage here - why necessary if there is a large storage building?

Overlook / fishing platform

Look into river rafting groups - could this be an access point?

The playground has been affixed with plywood and chain link fence

Selectively clear to open up views of the river

There is a "do not enter" sign here - potentially in need of circulation and access control

Underutilized space - selective clearing for nature trails, nature play, possible dog park zone

Outfield fence in good shape, same with dugouts at this field

Existing basketball court - could use another

DPW storage

Little League - Minors

Wood post guiderail - need something more sturdy

One alternative should include regrading access road

Little League - Minors

Ice rink heavily used, look at seasonal drainage improvements for year-round use of this space

Dugout is moved annually for sledding hill

Erosion - too steep for mowing

Consider adding sidewalk along this edge

Sledding chutes molded into the earth - shallower

Lighting here for sledding hill - need more

Sledding chutes molded into the earth - deeper

Restroom building and warming area with locker rooms - roof leaking - needs upgrades, possible relocation

Drainage ditch here and follows south east edge

General Park Comments:

- Consider decommissioning a baseball field
- Needs more parking
- Embrace the River!
